

MAWBRAY Festive Results

Planners Note:

Two controls didn't work for some people some of the time (153 (Brown) [183 added at that control] and 155 Pink). This made calculating the result even more of a challenge. I've therefore assumed any colour missed between Reds was a Brown, missing after the final Red was Yellow and assumed they were visited if missing from the final colour sequence. This might have a small impact on the Long course scores so apologies if you're adversely affected.

I hope you all enjoyed the event but please send any complaints to 'I'm-happy-to plan-next-years-event @.' Respect to Dave Fenwick for the last 'How many' festive events .com'

Happy New Year

Simon
